

## 4. CAPTURAS

### Pantalla Principal Source

```
PantallaSecundaria secondScreen;
public PantallaPrincipal() {
    initComponents();
    secondScreen = new PantallaSecundaria(parent: this, modal: false);
}

@SuppressWarnings("unchecked")
Generated Code

private void jButtonRojoActionPerformed(java.awt.event.ActionEvent evt) {
    JOptionPane.showMessageDialog(parentComponent: this, message: "Todo bien?", title: "Mensaje", messageType: JOptionPane.INFORMATION_MESSAGE);
}

private void jMenuItemImagen_01ActionPerformed(java.awt.event.ActionEvent evt) {
    secondScreen.setimg(new File(pathname: "../src/actividad_09/img/GOKU.jpg"));
    secondScreen.setVisible(v: true);
}

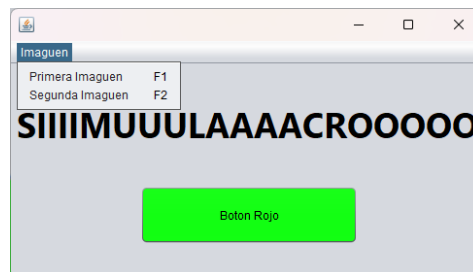

private void jMenuItemImagen_02ActionPerformed(java.awt.event.ActionEvent evt) {
    // TODO add your handling code here:
    secondScreen.setimg(new File(pathname: "../src/actividad_09/img/VEGETA.jpg"));
    secondScreen.setVisible(v: true);
}
```

### Pantalla Secundaria Source

```
public PantallaSecundaria(java.awt.Frame parent, boolean modal) {
    super(owner: parent, modal);
    initComponents();
}

public void setimg(File path) {
    panelImagen.setPath(path);
}
```
